NYE COUNTY WORKSHOP ON ALTERNATIVE REPOSITORY DESIGN

NUCLEAR WASTE TECHNICAL REVIEW BOARD BEATTY, NEVADA JUNE 29, 1999

MALACHY R. MURPHY
REGULATORY & LICENSING ADVISOR
NYE COUNTY NWRPO
1014 CRALYON AVE. SE
OLYMPIA, WA 98501
(360) 943-5610

WORKSHOP OBJECTIVES

- DEVELOP UNDRSTANDING OF A NATURALLY VENTILATED REPOSITORY DESIGN
- COMPARE WITH DOE VA BASE CASE DESIGN AND CURRENT ALTENATIVES BEING CONSIDERED
- EXPLORE ENGINEERING AND GEOTECHNICAL CONSTRAINTS ON LONG-TERM NATURAL VENTILATION

OBJECTIVES (CONT'D)

- IDENTIFY DESIGN OR OPERATIONAL ALTERNATIVES TO AVOID IN ORDER NOT TO PRECLUDE LONG-TERM NATURAL VENTILATION
- IDENTIFY AND DISCUSS ADDITIONAL DATA AND ANALYSIS NEEDS
- DISCUSS RANGE OF APPROPRIATE STUDIES AND TESTS WHICH SHOULD BE CONDUCTED TO COLLECT NECESSARY DATA

WORKSHOP HELD IN LAS VEGAS DECEMBER 1 & 2, 1998

REPORT COMPLETED AND
TRAMSMITTED TO PARTICIPANTS IN
EARLY MARCH. IS NOW AVAILABLE
ON NYE WEBSITE.
(WWW.NYECOUNTY.COM)

DOE COOPERATED WITH NYE IN ORGANIZING AND SCHEDULING WORKSHOP, AGENDA, OBTAINING PANEL MEMBERS AND PRESENTERS, AND ENCOURAGED ATTENDANCE.

WORKSHOP WAS WELL ATTENDED BY PROJECT PARTICIPANTS AND PROMINENT, NON-PROGRAM SCIENTISTS AND ENGEINERS.

SEVERAL TOPICS WERE DISCUSSED:

- DOE DESIGN ALTERNATIVES
- HYDROLOGIC IMPACTS OF A NATURALLY VENTILATED REPOSITORY
- GEOCHEMICAL IMPACTS OF A NATURALLY VENTILATED REPOSITORY
- THE M & O VENTILATED REPOSITORY ANALYSIS

WORKSHOP FOCUSED ON TWO PRINCIPAL VENTILATED REPOSITORY DESIGNS:

- "MONTAZER MODEL" OF A NATURALLY VENTILATED REPOSITORY, AND
- THE "DANKO MODEL" OF POST-CLOSURE COOLING AND VENTILATION IN A LOOP REFERRED TO AS THE "BOWTIE" CONFIGURATION.
- WORK ON BOTH IS STILL ONGOING, AND CONCLUIONS ARE THUS NECESSARILY PRELIMINARY.

CONCLUSIONS AND RECOMMENDATIONS

WORK SHOULD CONTINUE ON BOTH BASIC APPROACHES TO REPOSITORY VENTILATION.

SHOULD INCLUDE, AT A MINIMUM:

- CONTINUED MONITORING DURING CONSTRUCTION
- LARGE-SCALE NATURAL VENTILATION EXPERIMENTS
- COMPREHENSIVE SIMULATIONS OF HEAT AND MOISTURE REMOVAL
- APPROPRIATE TESTING TO VALIDATE MODELS USED
