# Nuclear Waste Technical Review Board

## Spring Board Meeting

### Project Overview

---

P M Golan, Acting Director

Office of Civilian Radioactive Waste  
Management

---

# Topics of Discussion:

- Fiscal Year 2007 Budget Request
  - Clean Canistered Design Approach and Status
  - Resolution of Quality Assurance concerns associated with infiltration rate estimates
  - Quality and Organizational Culture
  - Infrastructure Upgrades/Worker Safety
  - Designation of Lead Laboratory: Sandia National Laboratories
-

---

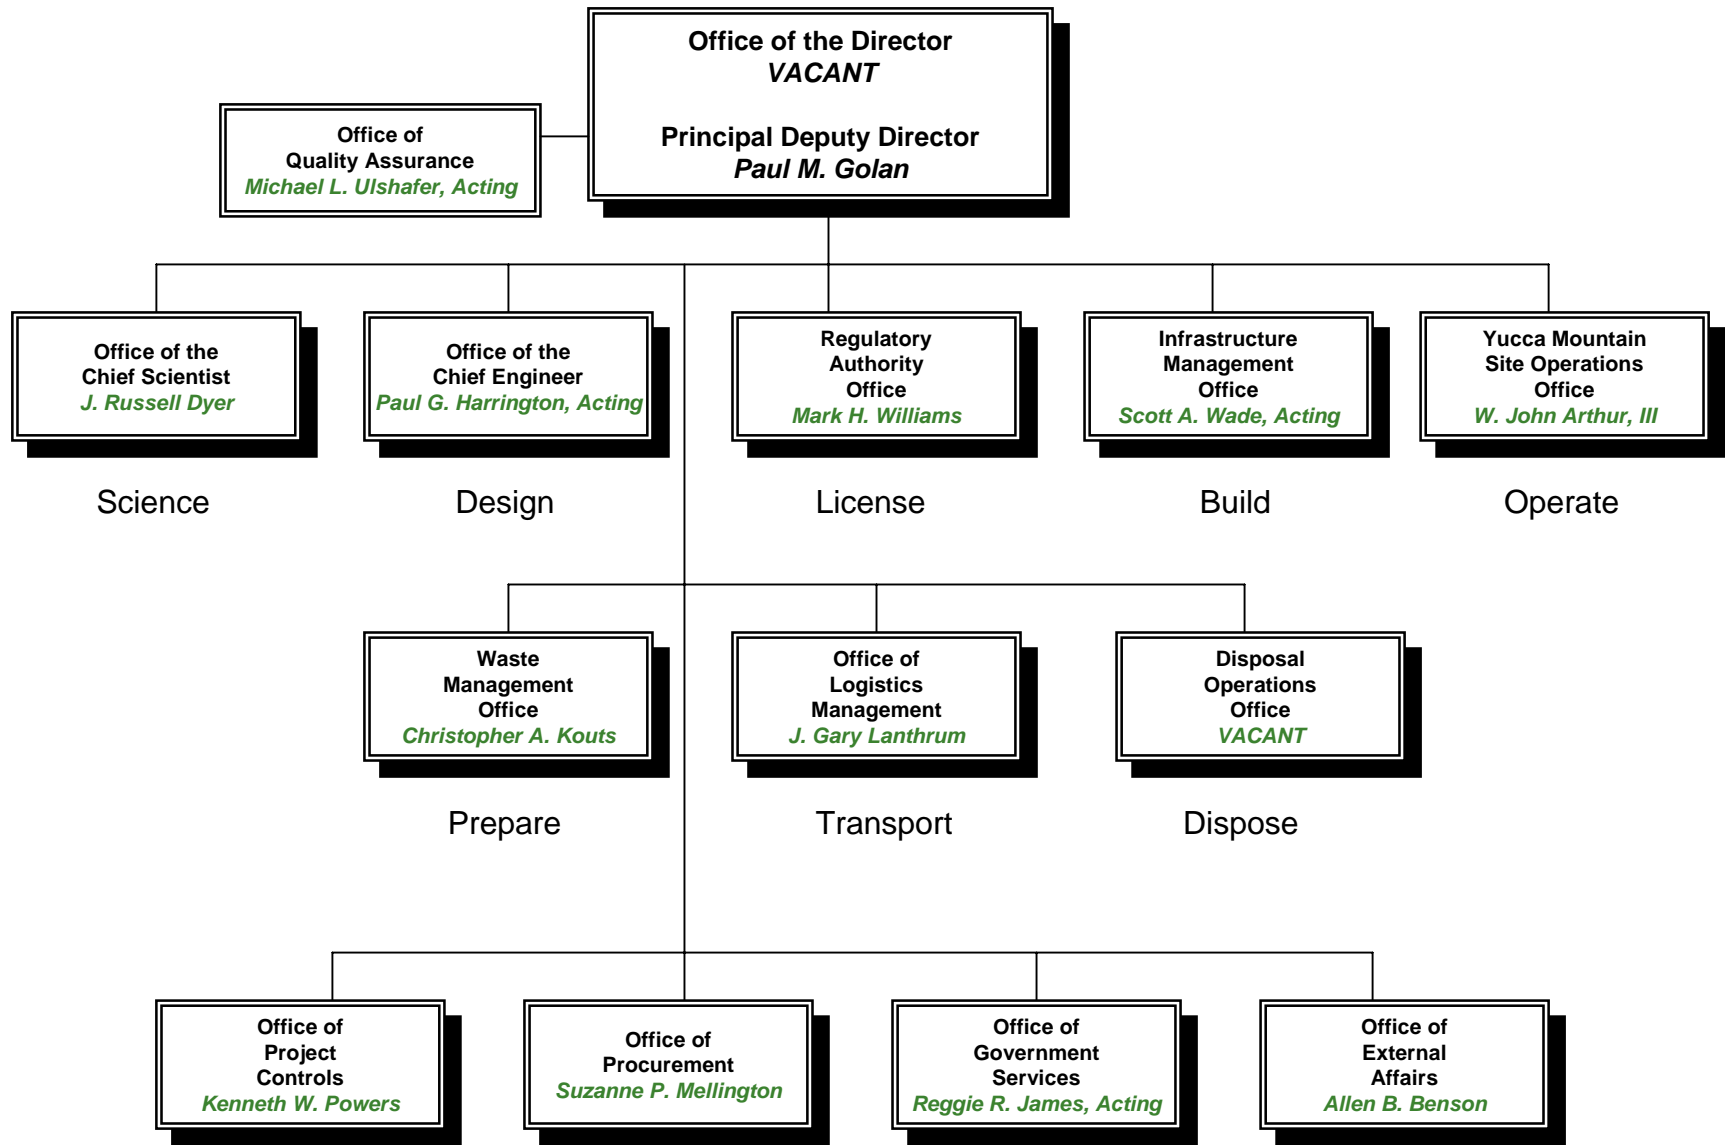

# Topics of Discussion:

- Independent Technical Review Consortium
  - Contract Status
  - Organization
  - Licensing Schedule
  - Legislation
-

---

# FY07 Budget Request

- Total Request: \$544.5 million
    - Nuclear Waste Fund: \$156.5 million
    - Defense: \$388.0 million
  - Four Areas of Focus
    - Development of License Application with Clean Canistered Approach
    - Safety Improvements to Site Infrastructure
    - Development of Transportation Infrastructure
    - Improvement of Quality and Culture
  - FY06 Actual: \$495.0 million which included \$49.5 million for Integrated Spent Fuel Recycling, a Nuclear Energy Project
-

---

# Legislation

- Required by the Nuclear Waste Policy Act
  - Recognizes changes since the Act was passed (1982) and subsequently amended (1987)
  - Seeks to provide clarity and predictability
-
